

# JOJO OLUWAFERANMI SHEMDZIN AIKINS

Accra, Ghana | +233593989735 | jojoaikins12@gmail.com | [LinkedIn](#) | [github.com/Oluwaz](#)

## SUMMARY

---

- Highly motivated and adaptable, with strong organizational, analytical, and interpersonal skills.
- Effective team player, comfortable working in multi-tasking environments with diverse teams to achieve results.
- Skilled at achieving goals as both a cross-functional team member and individual contributor.

## WORK EXPERIENCE

---

### Software Tester/QA

April 2026 – Present

#### TouchUp – Remote

- Conduct end-to-end testing of web application workflows, including transactions, account management, and user authentication.
- Validate real-time processing of high-volume transactions while ensuring system stability. Provide detailed defect reports, with reproduction steps, to stakeholders.
- Maintain records of test results and provide actionable insights to improve product quality.
- Conduct functional, regression, and performance for banking web and mobile applications.
- Use tools such as Postman or Swagger for API testing and automation.

### Quality Assurance Engineer (NSP)

October 2024 – January 2026

#### Zenith Bank Ghana Ltd - Accra, Ghana

- Conduct functional, regression, and performance for banking web and mobile applications.
- Ensure cross-platform compatibility for mobile apps on iOS and Android, using tools like Appium.
- Use tools such as Postman or Swagger for API testing and automation.
- Liaise with external financial partners, like GHIPPS and PAPSS, to ensure seamless integration of payment systems.
- Validate real-time processing of high-volume transactions while ensuring system stability. Provide detailed defect reports, with reproduction steps, to stakeholders.
- Maintain records of test results and provide actionable insights to improve product quality.

### Data Analyst (Contract)

January 2024 – September 2024

#### Ahenfie Mineral Water - Accra, Ghana

- Assisted in gathering, cleaning, and preprocessing large datasets from various sources to ensure data accuracy and consistency for analysis.
- Conducted exploratory data analysis to uncover patterns, correlations, and insights, using statistical tools and visualization techniques to support decision-making.
- Created detailed reports and visualizations to communicate findings and recommendations to stakeholders, translating complex data into actionable insights.
- Helped develop and evaluate machine learning models using techniques such as regression, classification, and clustering, and assessed their performance using metrics like accuracy, precision, and recall.

### Manual Tester (Intern)

August 2022 – September 2023

#### Nuel Restoration Services (NRS) - Accra, Ghana

- Assessed the supplier's capabilities to ensure that they meet the required quality assurance standards.
- Participated in product development meetings, providing input on quality considerations.
- Identified quality problems and recommended solutions.

## IT Officer

**Top and Team Ltd** – Accra, Ghana

**January 2021 – June 2022**

- Conducted functional, performance, and compatibility testing of CCTV systems to ensure optimal operation.
- Prepared detailed test reports documenting system configurations, vulnerabilities identified, and corrective actions taken.
- Verified network configurations and camera settings, including IP addresses, MAC addresses, and connectivity.
- Collaborated with clients to troubleshoot external factors affecting system performance.

## EDUCATION
